gaco.com

Beauty that withstands the test of time.

Sometimes a plain old deck just won't do.

With **GacoFlex Crystal Deck**, you can create a customized look for your deck that makes you stand out from the crowd. Crystal Deck is a seamless membrane pedestrian deck system that incorporates colored crystal quartz granules for added slip resistance and a customized look. With a variety of available color combinations, Crystal Deck is the most versatile of Gaco's decking and waterproofing systems – limited only by imagination.

System Components

| | |
|--|---|
| GacoFlex U5677 | Single-component, moisture-cured polyurethane sealer. |
| Alternative Primer / Sealer: Gaco E5691 | Water reducible epoxy primer sealer |
| GacoFlex E5320 | Two-component, water-based epoxy primer/filler. |
| Alternative Primer: GacoFlex E5990 | 100% solids two-component penetrating epoxy sealer – contains very low VOCs. |
| GacoFlex UB64 | Hydrolytically stable, fire retarded, two-component elastomer base coating. |
| GacoFlex U66 | Two-component, fire retardant polyurethane elastomeric waterproofing coatings. Excellent weathering, fire retardance, toughness, fast cure and good solvent resistance. |
| GacoFlex UA7090 | Clear aliphatic coating; won't yellow over time. |
| GacoFlex Crystal Quartz | Available in a multitude of solid or pre-blended colors. |

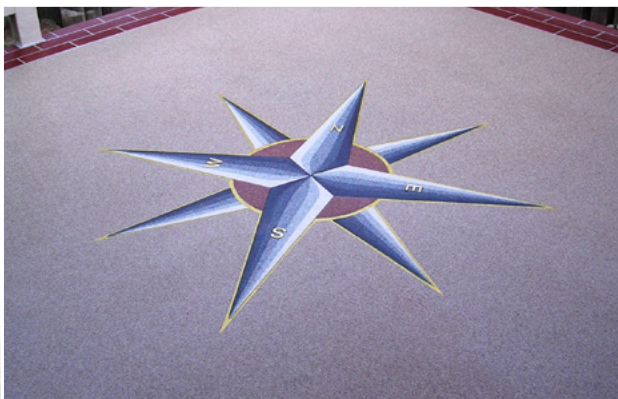

GacoFlex Crystal Deck

Polyurethane Elastomeric Coating System

The specially-formulated cell structure of Crystal Deck quartz crystals makes their color more vivid and long-lasting. In addition, the physical properties of UA7090 clear aliphatic coating give coating protects the color clarity of your deck over time so it won't yellow from UV sunlight exposure.

The materials in GacoFlex Crystal Deck expand and contract with normal temperature shifts to provide long-lasting leakage protection. The fully integrated GacoFlex coatings are specially formulated to bond together and avoid shrinking, cracking, chipping, peeling, lifting or buckling when the temperature changes – creating a deck surface which will retain its strength and beauty season after season.
