

GacoSeal SM5430

GacoSeal SM5430 Sealant is a high performance, high solids, non-skinning, non-drying standing seam roof (SSR) and insulated panel sealant based on a unique elastomer that provides a non-stringy consistency and excellent resistance to severe environmental conditions of heat, cold and moisture. Specifically formulated for precise application into concealed panel joints for roll forming lines (standing seam roof panels).

Packaging

- 10.1 oz. Cartridge (30 Cartridges / Case)
- 20 oz. Sausage (12 Sausages / Case)
- 5 Gal. Pail
- 55 Gal. Drum

Color

- White

Excellent Adhesion

Excellent adhesion to oily GALVALUME®, GALVALUME PLUS®, ACRYLUME®, ZINCALUME®, Kynar 500®, aluminum, aluminized steel, polyvinyl fluoride and siliconized polyester painted metal, concrete, FRP and glass

Remains Soft & Tacky

Engineered For Low Temperature Applications

Minimal Shrinkage

Fungi & Mold Growth Resistant

Strong Adhesion Between Dissimilar Metals
